You understand that finance charges (interest) will continue to accrue on a daily basis during the month the payment is skipped and this authorization amends your original loan agreement. Deferral of the regular or minimum monthly payment(s) will result in having to pay higher total finance charges (interest), and the loan repayment schedule will be extended. Under some circumstances, the payment may not cover the finance charges (interest) that accrue and "negative amortization" may occur.

Following the skipped payment, you must resume the regular monthly or minimum scheduled payments as outlined in the original loan agreement.

If you have debt protection coverage, the premium(s) will continue to be added to your loan.

If you purchased GAP Insurance Coverage, you understand that you can skip a maximum of two payment during the life of your loan in order to receive full GAP protection. Skipped payments include missed payments that are authorized by the Credit Union or caused by delinquency.
